

Dear Premier,

I am sending you this postcard to bring to your attention the fact that over 35,000 children are killed by abortion each year in Ontario. It is red to represent the blood of the children whose lives have been ended and who are now unable to share or contribute to our world.

In the face of difficult economic times, your government has asked Ontarian's to be more mindful of scarce healthcare dollars.

There is proof that abortion directly increases healthcare costs. Comprehensive research reports the negative physical and psychological impact of induced abortion on women. Polls consistently show that the majority of Ontarians (67%) are opposed to public funding of abortion on demand (Environics Research Group, 2008).

Surely, the over \$30 million dollars spent annually on *elective* abortion, should be allocated to *necessary* healthcare instead? It is the exclusive responsibility of the province to determine what services will be insured. Therefore, I ask you, as Premier of Ontario, to de-insure abortion.
